WORK EXPERIENCE

Loblaw Companies Limited

Supply Chain Replenishment Analyst

Jun. 2025 – Present

Brampton, Ontario

- Deployed an **end-to-end ETL pipeline (SharePoint → Python → SQL → Power Automate → SAP)** fully automating vendor order conversions for the Store Support team, reducing manual effort and improving data accuracy by **95%**.
- Built a **Python ETL pipeline leveraging Blue Yonder LDE APIs** to extract, transform, and analyze store forecast data, automatically flagging and logging exceptions for weekly review and root cause identification.
- Designed SAP automation using python, SQL, and Excel (VBA) that eliminated high-volume manual data processes for the Store Demand Planning team, documenting workflows and trained colleagues for adoption.
- Built a **Python automation for competitor ad-match demand uplift** that parses inbound files, applies forecast uplift to matched articles, and maintains a SharePoint tracking log by competitor and week.
- Perform **root cause analysis** on data discrepancies and system issues impacting store demand forecasts, implementing corrective actions across system, business, and process causes.
- Manage store-level demand forecasts in **Blue Yonder Luminate Demand Edge (LDE) and IPFR** for stores nationwide, acting as a liaison between business stakeholders and technical teams to translate forecasting needs into data solutions.

Lufa Farms

Inventory Associate

Jan. 2023 – Mar. 2023

Montreal, Quebec

- Improved inbound-outbound material flow by streamlining ERP updates for **200+** products, reducing shipping errors and enhancing line efficiency by **12%** to meet fill rate and in-stock targets.
- Conducted hands-on inspections with warehouse operators to identify inventory gaps and implement corrective actions, reducing inventory holding costs by **15%**.

Abs Manufacturing

Supply Chain Data Analyst

Jan. 2022 – Dec. 2022

India

- Accelerated project completion by **25%** by establishing direct communication between the data team and department heads, reducing inventory discrepancies with Power BI.
- Reduced inventory holding costs by **15%** by building and analyzing KPI-based inventory reports in Power BI, SQL, and Excel and managing purchase orders to meet service level targets.

SKILLS

Programming & Data: Python (pandas, automation, APIs), SQL, VBA

Analysis & Optimization: Root Cause Analysis, Continuous Improvement, Lean Six Sigma, DMAIC, Demand Forecasting, Time-Series Analysis, KPI Reporting

Supply Chain Systems: Blue Yonder Luminate Demand Edge (LDE), IPFR, SAP (incl. GUI scripting), ERP/MRP

Data & Automation Tools: Power BI, Power Automate, Excel (advanced), MS Access, SharePoint, Tableau

Certification: Microsoft Power BI Data Analyst Associate ([PL-300](#))

EDUCATION

Concordia University

Masters in Industrial Engineering

Jan. 2023 – Oct. 2024

Montreal, Quebec

Specialization: Industrial Optimization and System Analytics

Aligarh Muslim University

Bachelors in Mechanical Engineering

Aug. 2018 - May 2022

India
